Dear Ms. Plesner:

URS Corporation has completed its traffic investigation in response to your letter to the Town of Avon requesting a traffic investigation in your neighborhood. A copy of the Traffic Investigation Report will be available for viewing at the Town Hall. The Town of Avon has also posted a copy of this report on its website, for your neighborhood residents to access, review, and download. A copy of the Town's Neighborhood Traffic Calming Policy, approved 9/14/06, will also be available via the Town's website and describes the process by which traffic calming devices are considered for implementation in any given neighborhood.

A survey letter will be sent to each property owner in what has been defined as the "directly affected area". The "directly affected area" residents will be asked to respond to survey questions in order to determine the level of interest pertaining to the recommendations in the Traffic Investigation Report. At least 75% of the property owners in the directly affected area will be asked to approve of the recommendations in the report for the Town to consider installing the traffic calming measures this year. The Town may also consider just the percentage of survey respondents alone when making its decision to move forward with the report recommendations.

The Town will conduct a meeting at the Town Hall on Wednesday, May 28 @ 7:00 PM to discuss the traffic calming program and answer specific questions regarding the Traffic Investigation Reports for all four neighborhoods studied in 2007.

We appreciate your interest in the Town's traffic calming program. Feel free to call Ryan Cannon, Public Works Director (272-0948) or Tom Sturmer, URS Corporation (532-5483) if you have any questions.

Sincerely,  
URS Corporation

Tom Sturmer, PE, PTOE  
Senior Traffic Engineer/ Planner
