Avon and Brownsburg receive Local Government Collaboration Award For Bicentennial Trail

(October 16, 2017) At the annual awards luncheon for Accelerate Indiana Municipalities held on October 11, 2017, the Towns of Avon and Brownsburg received the local government collaboration award for the construction of the bicentennial trail. The one mile long bicentennial trail was designed and constructed by both communities. The trail is open for use by bicyclists and pedestrians.

Each community paid the proportionate cost of the design and construction based on the amount of trail located within each Town. The proportionate cost was approximately 50% for each community.

The trail was named the Bicentennial Trail and was planned to be constructed in 2016 to celebrate the State's Bicentennial. The trail project was designated a Bicentennial Legacy Project by the State of Indiana.

The Bicentennial Trail will connect over 20 neighborhoods in Avon to the Brownsburg trail system including the B & O Trail and it will connect over 25 neighborhoods in Brownsburg to the Avon trail system.
