7.3. **SeeClickFix | Community + Municipality Tool**

Jared and Steve have been working together on a product from CivicPlus called SeeClickFix. This is a next-level responsive citizen relationship management tool that will not only give better insight and options for residents to submit concerns about Public Works elements, but also the ability to submit Parks and Rec feedback, community maps for engagement, private non-emergency communication with Avon Police, and more. A completely mobile structure will allow all users to easily report on the go from their smartphones. The built-in mapping system, that integrates with our GIS system, will allow users to "drop a pin" on the exact location, and then show these pins publicly to allow the community to see what is being worked on. Lastly, all residents that have an account with [AVONGO.V.ORG/CIVICPLUS](https://www.avongov.org/civicplus) will be able to comment and follow the progress of public pins/projects.
