RE: Hollow Brook Traffic Issues

Dear Mr. Cannon,

This letter is being sent on behalf of the community and board of Hollow Brook HOA in regards to traffic concerns they have within their community located off of Dan Jones Road. We would like our community to be considered as one of the three chosen for possible traffic calming devices.

Some of the issues we have within our community are first and foremost speeding and disregard for stop signs and pedestrians within the community. We have one hundred and twenty five homes within our community and several have children who ride bikes etc. within the community. These speeders doing double the speed limit and not even slowing down for the stop signs let alone stop poses a huge threat to the safety of our homeowners. There are drivers using the community to cut through the traffic at the intersection there of 600 and Dan Jones. The drivers coming through the community need to be more aware of the danger being created due to their lack of paying attention and following all traffic guidelines.

We feel if we were able to have some sort of traffic calming devises within the community it will help to make our community a safer place for ourselves and families to reside in. Any help by the town of Avon would be greatly appreciated.

If you have any further questions, please feel free to call our office.

Sincerely,

Nichole White with Elite Property Management Services of Indiana, Inc.
On behalf of Hollow Brook Homeowners Association, Inc.

Requesting a Study for the Traffic Calming Program

The Hollow Brook homeowners have requests the Town of Avon study the traffic on Brookway Drive. Vehicles on this road are using excessive speed, they are passing you & then cutting back in front of you just missing your car, (I know this because they have done it to me),cutting through from other neighborhoods and are not stopping at the stop signs.
