 - 1. Promoting traffic and pedestrian safety;
 - 2. Promoting the Town's unique residential, commercial, industrial, institutional, agricultural and other zoning districts, and the overlay districts which apply to these zoning districts;
 - 3. encouraging signs of good design which enhance the development environment and which are integrated and harmonious to the sites they serve;
 - 4. Promoting development which enhances property values;
 - 5. Preserving open space;
 - 6. Minimizing the visual clutter associated with multiple signs either on the same property or in signs in close proximity to one another; and
 - 7. protecting the health, safety and general welfare of the residents of the Town.
- B. Manner of Regulation
 - 1. The Town of Avon regulates signs only to advance its substantial governmental interests. Section 18-2 Definitions

- A. The following definitions apply to this Chapter:

- 1. Obscene Signs: A sign is obscene when it, taken as a whole, appeals to the prurient interest, is patently offensive in light of community standards, and lacks serious literary, artistic, political, or scientific value. See *Miller v. California*, 413 U.S. 15 (1973).
- 2. Portable Signs: Signs including but not limited to "A" or "T" frame and signs on trailer frames, whether or not the trailer wheels or typeface have been removed.
- 3. Signs: An object, item or display which conveys information, imagery, and/or instructions. Objects such as flags, banners, plaques, bulletin boards, historical markers and remembrances are not

- D. No building mounted sign shall project into the public right-of-way nor shall a sign attached to a building extend more than eighteen (18) inches from the face of the building or be less than nine (9) feet above grade.

AVON ZONING ORDINANCE

- (b) The bottom edge of an awning, canopy, or marquee shall not be less than ten (10) feet above the average grade over walkways and not less than fifteen (15) feet over driveways.

The substitution of copy is allowed by right without a new or additional permit. Nothing in this section should be construed as favoring commercial speech over noncommercial speech or the favoring of any particular noncommercial message over any other noncommercial message.**

3. Illumination

In addition to the requirements for outdoor lighting found in Chapter 14, Section 14-15, the illumination of signs shall meet the following requirements.

A. Location and Design of Light Source

Whenever an external artificial light source is used to illuminate a sign, such source shall be so designed, located, shielded and directed as to prevent the casting of direct light upon any public right-of-way or residential property line, or any point twenty (20) feet or more outside other adjoining property lines. A receptacle or device housing a permitted light source shall be top mounted and directed below the horizontal, except for ground-mounted signs no higher than six (6) feet which may be illuminated with ground-mounted or bottom-mounted lighting fixtures.

B. Level of Illumination for Externally Illuminated Signs.

The average level of illumination on the vertical surface of an externally illuminated sign shall not exceed thirty (30) foot-candles, unless permitted ground-mounted or bottom-mounted lighting fixtures are used, in which case the average level of illumination on the vertical surface of the sign shall not exceed twenty (20) foot-candles. No sign within six hundred (600) feet of a Residential District shall be illuminated unless the sign is visibly obstructed from view from the Residential District.

D. Neon Lighting

For the purposes of this ordinance, signs using neon lighting shall be considered internally illuminated signs and shall be subject to the requirements specified for internally illuminated signs.

4. Sign Area Computation

AVON ZONING ORDINANCE

The following principles shall control the computation of sign area.

A. Computation of Area of Individual Signs

The area of a sign face shall be computed by means of the smallest square, circle, rectangle, triangle, or combination thereof that will encompass the extreme limits of the writing, representation, emblem, color, or other display, together with any material or color forming an integral part of the background of the display or used to differentiate the sign from the backdrop or structure against which it is placed, but not including any supporting framework or bracing unless such framework or bracing is made part of the message or face of the sign.

B. Computation of Area of Multiple-Faced Signs

The sign area for a sign with more than one face shall be computed by adding together the area of all sign faces visible from any one point. When two identical sign faces are placed back to back, so that both faces cannot be viewed from any point at the same time, and when such sign faces are part of the same sign structure and are not more than forty-two (42) inches apart, the sign area shall be computed by the measurement of one of the faces. (Signs that require other signs to display full meaning, such as individually displayed letters or pictorial displays, shall be considered one (1) sign.) If both faces of a sign are visible from any one point, both sign faces shall be computed separately.

C. Computation of Height

The height of a sign shall be computed as the distance from the base of the sign at normal grade to the top of the highest attached component of the sign. Normal grade shall be construed to be the lower of the existing grade prior to construction or the newly established grade after construction, exclusive of any filling, berming, mounding, or excavating solely for the purpose of locating the sign. In cases where the normal grade cannot reasonably be determined, sign height shall be computed on the assumption that the elevation of the normal grade at the base of the sign is equal to the elevation of the nearest point of the crown of a public street or the grade of the land at the principal entrance to the principal structure on the zone lot, whichever is lower.

5. Construction, Design, and Maintenance

- A. All signs shall meet the construction and design standards set forth for signs in the Town's Building Code. All signs shall also be designed and constructed to withstand wind pressures and dead loads as required by the Town's Building Code.
- B. Every sign established in the Town shall, at all times, be maintained in good aesthetic and structural condition. The Zoning Administrator shall have the authority to inspect any sign pursuant to Section 18-10 below, and order any remedial action authorized thereunder.

6. Litter Control

All signs and the premises surrounding the sign shall be maintained in a clean, sanitary and inoffensive condition, and free and clear of all noxious substances, rubbish and weeds.

7. Landscaping Requirements

Every ground, pylon, or integrated center identification sign shall meet the landscaping standards hereinafter specified.

- A. For every square foot of sign surface area there shall be provided 0.5 square feet of landscape area around the base of the sign.
- B. Any sign constructed or erected to a height in excess of ten (10) feet above the average surrounding grade shall be required to be improved with an additional one square foot of landscaped area for each foot of height or portion thereof that said sign is constructed or erected above said ten (10) feet in height.

AVON ZONING ORDINANCE

- C. The required landscaped areas shall be improved with plantings such as hedges, conifers, flowering plants, miniature evergreens, or other similar specimens of a size and in quantity proportionate to the size and height of the sign as determined by the Zoning Administrator.
- D. In addition to the plantings herein described, the landscaped area shall also include ground protection such as, but not limited to, ground cover plants, landscaping bark, decorative stone or landscape timbers.
- E. It shall be the duty of each party owning any lot or parcel improved or to be improved with the landscaping required herein to maintain said landscaping including, but not by way of limitation, the replacement of any dead or diseased vegetation, the trimming of any overgrown vegetation and the maintenance of any groundcover or protection provided in accordance with the terms hereof.
- F. All sign landscaping shall be installed at the time the sign is erected. However, the installation of required plant materials may be delayed until the next optimal planting season, as determined by the Zoning Administrator.

Section 18-7 Temporary Signs

The following signs shall be permitted in the Town provided that they first obtain a permit in accordance with Section 18-7 above. Temporary Promotional Signs shall, in all respects, comply with the applicable regulations contained in this Chapter 18.

1. Application Information

In addition to the requirements for specific temporary signs set forth below, all temporary signs shall be subject to the following:

- B. A combination of two (2) sign types may be included within the temporary promotional signage.
- C. A sign shall not exceed thirty-two (32) square feet per sign face, and shall not have its own illumination source.
- D. All said signs shall not exceed ten (10) feet in height if freestanding, or if placed on a principal building, remain one (1) foot below the roofline. All temporary signs shall be properly secured from all corners.
- E. Signs shall not obstruct public walkways and shall not be located in the right-of-way of a public road.

The Zoning Administrator may inspect, at such times as he deems necessary, each sign or sign structure regulated by this Chapter for the purpose of ascertaining whether the sign is in compliance with this Chapter or any other relevant Town code, law or ordinance.

1. Unsafe and Unlawful Signs

A. Duty to Remove or Repair

- (a) Should the Zoning Administrator find any sign regulated by this Chapter to be unsafe, unlawful, or a menace to the public; or constructed, erected, or maintained in violation of the provisions of this Chapter; he shall cause notice to be given to the holder of the permit in accordance with Chapter 19 (Enforcement).
- (b) If the holder of the permit should fail to remove the sign or bring the sign or other advertising structure in compliance, the Zoning Administrator shall cause prosecution of the violation in accordance with Chapter 19 (Enforcement).

2. Unlawful signs.

Unlawful signs, regardless of type, are a violation of this Ordinance and shall be removed immediately upon notice. Should the owner fail to remove the sign or bring the sign or other advertising structure in compliance, the Zoning Administrator shall cause prosecution of the illegal sign in accordance with Chapter 19 (Enforcement).

3. Signs Causing Immediate Peril.

AVON ZONING ORDINANCE

The Zoning Administrator may cause any sign or other advertising structure that is causing immediate peril to persons or property to be removed summarily without notice.

4. Signs No Longer in Use

Any sign advertising a defunct or relocated business, or an unavailable product or service, shall be deemed a violation of this Ordinance and shall be taken down and removed by the owner, agent, or person having the control of the premises upon which the sign is located within thirty (30) days of the violation. The Zoning Administrator shall give notice to the owner or to any person occupying the property, in accordance with Chapter 19 (Enforcement), that the sign on his premises is in violation. Failure to comply with the notice within the time specified shall cause the Zoning Administrator to prosecute the violation in accordance with Chapter 19 (Enforcement). The structure of a sign which is no longer in use may remain in place if the sign's message can be removed without detriment to the overall appearance of the sign. A decision to allow the structure of the sign to remain shall be at the discretion of the Zoning Administrator.

5. Additional Enforcement Action for Violations on Private Property

In addition to proceeding under the provisions of Chapter 19 (Enforcement) for signs found to be in violation of the Chapter, the Zoning Administrator may enter onto the subject property and take the appropriate action, including removal of the sign, to bring the property into compliance. However, before such compliance action shall be taken, the Zoning Administrator shall provide notice to all persons holding a substantial interest in the property of his intentions and provide such persons a reasonable time to bring the property into compliance. If in enforcing this Chapter, the Zoning Administrator proceeds under this Section, the Town's expenses involved in such action shall be made to become a lien against the subject property.

6. Signs not Conforming to this Chapter

A. Authority to Continue

Any lawful sign located within the Town at the effective date of this Ordinance or which shall come to be located in Town as a result of annexation after the effective date of this Ordinance, which does not conform to the provisions of this Chapter, may continue provided the sign remains in conformance with the provisions of this Section.

B. Conditions of Lawful Status

For the purposes of this Chapter, legal nonconforming status shall be conferred only on signs authorized by a sign permit or variance of a preceding ordinance, title, code, or law; or if no sign permit was required under the applicable preceding laws, the sign was otherwise in compliance with the requirements of the preceding ordinance, code, or law.

C. Ordinary Maintenance and Repair

Nothing in this Section shall relieve the owner or beneficial user of a legal nonconforming sign, or the owner of the property on which the legal nonconforming sign is located, from the provisions of this Chapter regarding safety, maintenance, and repair. Normal maintenance, including repainting, cleaning, or routine repair of a legal nonconforming sign, shall not be deemed to be a condition which triggers a loss of lawful status described below, unless such maintenance increases the nonconforming aspects of the sign.

D. Repairs Pursuant to Public Order
